# WELCOME TO THE FACULTY OF EDUCATION

The driving force behind York's Faculty of Education is the belief that where there is education, there is also a powerful transformation. As one of the largest Faculties of Education in Ontario, we strive to provide passionate, creative people with an inspiring environment in which they can cultivate their interests, gain the tools they need to motivate students and engage communities, actively contribute to the evolution of education and become powerful catalysts for change.

All of our programs are built on a solid ethical foundation and are infused with strong principles including equity, diversity, community, collaboration, interdisciplinarity and social justice.

## Foster the skills of teaching, mentoring and learning

Education is future-oriented – it's about development and growth even when we are studying the past. Education is giving or receiving knowledge, developing the powers of reasoning and judgement, using inspiration, tapping into creativity, taking risks and developing emotional and intellectual resilience. In our society, we see education everywhere, and whether you teach others or are in the process of learning yourself, education focuses on knowledge and on the intellect. Through the fine art of bringing out what is latent in a person, we learn as we teach.

To foster the skills of teaching and learning, York offers a **Bachelor of Education** and a **Bachelor of Arts, Educational Studies** program.

**OPEN YOUR MIND** with some of Canada's most extensive in-class and community practicum opportunities and an extensive range of BEd teaching subjects. York University will introduce you to new ways of thinking and help you see the endless opportunities your **Education** degree can offer. Learn more at [yorku.ca](http://yorku.ca)

## BACHELOR OF EDUCATION

We offer two teacher education program delivery models – Concurrent and Consecutive – leading to either a Bachelor of Education (BEd) degree or a BEd Technological Education and a recommendation for certification with the Ontario College of Teachers.

Our programs provide BEd students with the knowledge and skills necessary to enter the teaching profession as confident and effective teachers. Highlights of our programs include:

- A commitment to diversity, equity and social justice infused throughout the entire program
- Engagement in local and global classrooms and communities
- Development of teaching practices that are responsive to the needs of diverse learners
- Engagement in professional discourse within the teaching profession

**Concurrent BEd** students apply from high school or as an upper-year York student; they work towards an Education degree while at the same time completing most other York undergraduate degrees. As a Concurrent BEd student, you work to complete both your undergraduate degree and professional teaching program.

**Secondary School applicants** can be considered for Direct Entry into the Concurrent BEd if they have been admitted to one of eight Faculties at York: Faculty of Education (BA Educational Studies), Environmental Studies, Glendon, Health, Liberal Arts & Professional Studies, Science, Lassonde School of Engineering and School of the Arts, Media, Performance & Design) and have submitted all required documents by the mid-April deadline date. Students begin their first year in the Faculty of Education after completing a minimum of 60 or 90 credits of their York program.

**As a Consecutive BEd student**, you study two years consecutively after you have completed your undergraduate degree in another Faculty or at another university.

**Diversity of opportunities** – We offer the most diverse undergraduate education curriculum in Ontario, with both Bachelor of Education (BEd) and Bachelor of Education in Technological Education (BEd Technological Education) degree programs. We also offer opportunities in French language, Jewish teacher education, and a formal Specialization in International Education. Students in the Intermediate-Senior divisions are able to complete qualifications in one of the most extensive ranges of teachable subjects in the province. For more information on any of these options, visit our website at <http://edu.yorku.ca/academic-programs/bachelor-of-education/concurrent-bed/>

### Practicum Experiences

Students will begin their practicum experiences in the first year with both a community placement and a school-based placement. These complementary placements support the development of community-based practice, reflecting our Faculty's foundational belief in the relationship between school and community.

## TEACHING SUBJECTS

### Junior-Intermediate

- Dance
- Dramatic Arts
- English
- French as a Second Language
- Geography
- Health and Physical Education
- History
- Mathematics
- Music – Instrumental

## POSSIBLE CAREER PATHS

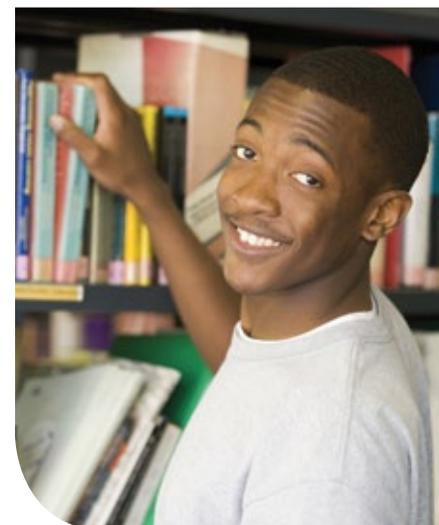

- Teacher
- Principal
- Education Policy Analyst
- Corporate Trainer
- Instructor
- Learning Consultant

## ACCESS INITIATIVE

### Valuing Your Experience

York University's Faculty of Education Access Initiative is designed to recruit, admit and support individuals who will make excellent teachers and reflect the diversity of our society. Our admissions policies are designed to assess the potential of all candidates, including those who have faced systemic barriers in educational settings and in their lives. Through the Access Initiative, the Faculty invites students from underrepresented groups to apply.

# BACHELOR OF ARTS EDUCATIONAL STUDIES

Our innovative Bachelor of Arts, Educational Studies program provides students with a broad understanding of how and why people learn, and what role education plays in society today. Upon graduation, you'll have the skills and knowledge needed to educate outside of the classroom and in roles that span all sectors.

Education thrives across all sectors. There are highly skilled educators at work anywhere human beings share knowledge. These corporate trainers, instructors, coaches, learning consultants, tutors, academic advisors and career counsellors apply their knowledge of how and why people learn to contribute to their communities and succeed in their chosen fields.

The Bachelor of Arts, Educational Studies provides students with the depth of knowledge needed to understand education and its role in society today. Students in this program develop the essential skills necessary to succeed in educational work outside of the traditional classroom. They benefit from the Faculty of Education's strength in the study of education and York University's strengths in the arts, humanities and social sciences.

Students accepted into the Bachelor of Arts, Educational Studies program may also apply for entry to the Concurrent or Consecutive Bachelor of Education programs.

## Experiential Education

Experience your education with opportunities for learning placements within the community or in related organizations as part of the Bachelor of Arts, Educational Studies program.

The Faculty of Education's workplace-based learning offers students an opportunity to put theory into practice in the field of learning and education. As a student of our Bachelor of Arts, Educational Studies program, you'll develop workplace-specific skills and enhance your professional networks – all while completing your degree.

**The Bachelor of Arts, Educational Studies does not lead to teacher certification.**

## STUDY OPTIONS

1. Honours BA with a major in Educational Studies (no minor)
2. Honours BA with a major in Educational Studies and a minor in another Faculty
3. Faculty (double major option)
4. Honours minor in Educational Studies, taken in conjunction with another degree.
