

# 2016 Community Consultations on Black Student Success

## Who should attend?

African Canadian parents and students who attend a public or Catholic school, educators, community agencies, advocates, and anyone else who is interested in the education of African Canadian students.

## What will happen?

We will present the Black Student Achievement Data from the Toronto District School Board, discuss your legal rights and responsibilities, Section 23 schools, your right to an education, and discuss how you can advocate for better outcomes for African Canadian students. You will share your experiences in the public or Catholic school system and your recommendations for change.

You will also provide input into an Education Agenda for the Black Community that will be presented to the Minister of Education and the school boards in the Greater Toronto Area.
